EXPOSITION OF 1910 PRACTICALLY ASSURED

Immense Sum Realized at Mass Meeting.

SUBSCRIPTIONS CAME IN FAST

Great Throng Packed Grand Opera House—Eloquent Speeches Were Made, Which Were Enthusiastically Cheered by the Audience.

Atlanta, May 10.—With a magnificent outburst of the old-fashioned Atlanta spirit, the 2,000 Atlantans who packed the Grand opera house Tuesday night, went into their packets for the splendid sum of more than $52,000, put at rest forever the thought of indifference to the exposition of 1910, and sent out to the world the glad tidings that Atlanta, following in the footsteps of Chicago, Buffalo, St. Louis and Portland, will open her gates in 1910 with the biggest exposition the south has ever seen.

The splendid meeting of Tuesday night proved the wisdom of its organizers. The people, the real people of the city they all love so well, swarmed the big auditorium, and every seat on the ground floor held an interested listener to the patriotic speeches. The corridors behind the rear seats were filled and many were forced to go into the galleries. A number of ladies added brilliancy to the imposing spectacle, and as each speaker would make a catching point the applause which swept the audience actually shook the rafters of the massive building.

The crowd represented all phases of Atlanta's life. The capitalists and the carpenter, the lawyer and the printer, the doctor, the preacher, the manufacturer, the merchant and the man from every walk and station clasped hands in the determination to make the movement a success.

And the contributions came from all classes of people and in all amounts. Ten thousand dollars was the largest sum contributed, and this came from the Southern Bell Telephone company. Five dollars was the smallest, and Joe Stewart, an employe of the opera house was the giver. The small contribution was received with applause as generous as the large one, as it represented an offering made in keeping with the ability of the donor.

The result of the splendid meeting Tuesday night seems to insure the success of the exposition. It was thought by some of the committee of 25 that the slowness with which contributions had been recently coming in, might possibly indicate that the people of Atlanta did not want the exposition. This thought was the motive for calling the mass meeting. It was to see if the people did, or did not, want the exposition. Some of the committee have always contended that the question had only to be brought to the people in a direct manner and that they would show in no uncertain way their approval of the movement. Others sincerely believed that in the midst of the prevailing general prosperity, the masses of the people were indifferent, and that the movement had best be dropped at this time. The gentlemen who took the latter view were in no sense decrying the exposition, but interpreted the apparent lack of interest as direct opposition. The movement lagged for a time. Then the suggestion to submit the matter to the people was made and adopted. The result of the referendum has been told above. All doubt seems to have been removed by the enthusiastic revival of the old Atlanta spirit, and it is now believed that the exposition is a certainty. Several members of the committee of 25 expressed themselves after the meeting as being certain that the people of Atlanta wanted the exposition, and stated that they would at once bend every energy to complete the guarantee fund, which they believe can be done in a short time.

SCHOONER ALGERIA SINKS.

Storm at Cleveland Menace to Shipping Outside of Harbor.

Cleveland, O., May 10.—The schooner Algeria sank about 2 miles off the harbor of Cleveland Wednesday morning and possibly three men lost their lives.

The schooner Iron Queen is in a sinking condition outside the breakwater, and the crew of eight men was taken off by the members of the life-saving crew.

The storm Tuesday night and early Wednesday morning, with the heavy sea it kicked up, was a menace to shipping outside the harbor.

The big steamers that had been tied up there by the strike came inside the breakwater, but the small schooners could not get in.

Signals of distress came to the life saving station, and Captain Mottley, of the life saving crew, went out to the Iron Queen, rescuing the eight members of the crew with difficulty.

The life saving crew could not reach the Algeria, which went down about 10 miles out.

Captain Mottley thinks there were at least three men on the Algeria, but does not know whether that is the actual number.

Barksdale Not Indicted.

Columbus, Ga., May 10.—The federal grand jury returned a no-bill in the case of Hiram W. Barksdale, a prominent planter of Box Springs, Talbot county, who was charged with obstructing a rural mail marrier. Much interest was felt in the case in Talbot county, as civil proceedings have been brought there to condemn for public uses the road through Barksdale's land, which is the cause of the trouble. Barksdale forbade the government from using the road, saying it was a private road, and when E. L. Nelson, a rural mail carrier, attempted to use it he met him with a shotgun. Barksdale had previously tried to keep the public out of the road by piling brush in it.

Rockford, Ill., May 10.—Arguments in the injunction proceedings brought by John Alexander Dowie against Wilbur Glen Voliva and others to set aside conveyance of property and reestablish Dowie in power at Zion City were begun Tuesday in the circuit court of Belvidere. A number of followers of both Dowie and Voliva were present. Late in the day it was announced that the attorneys in the case had agreed to a proposition of the court for a temporary settlement of the troubles.

This is one of the largest plants of this kind in the west, having cost $1,277,000 to build, and having a daily capacity of 1,100 tons of bets and 250,000 pounds of sugar. Failure of the beet crop to properly ripen last year is given as the cause of the trouble.

Jim Crow Cars for Washington.

Washington, May 10.—Some days ago representative Heflin, of Alabama, introduced a bill to require separate cars in the District of Columbia for the white and colored races. Tuesday he received the official endorsement of the measure from a local citizen's association. He will urge the bill before the committee.

DID RICH MAN END OWN LIFE?

Mystery Surrounds Death of Standard Oil Man.

CAN'T FIND TRACE OF BURGLAR

Spier Recently Secured $75,000 Worth of Insurance, Payable in Case of Suicide—Wife Thinks He Was Murdered.

New York, May 10.—Plans were made to have the funeral Wednesday of Charles L. Spier, the Staten Island business man who was shot in so mysterious a manner, that the authorities cannot determine whether he was murdered or committed suicide.

The authorities desisted from an attempt to find the fatal bullet because Mrs. Spier objected to the mutilation of her husband's body. As the authorities differed as to whether the bullet came from Mr. Spier's own revolver, it was reported that District Attorney Kenney, of Staten Island, would refuse to allow the funeral to proceed until a complete autopsy had been made. Ma Kenney said the bullet that killed Mr. Spier should be found in order to determine whether or not he was killed by his own revolver. Mrs. Spier, widow of the dead man, said:

"I do not see any good of an autopsy to find the bullet that killed him. To get it would require a great deal of mutilation. Dr. Patterson, Coroner Cahill and the assistant district attorney thought that it would not be necessary. What would it prove even if the bullet proved to be a 32-caliber, and Mr. Spier's revolver? I am told that is a very common size and most men carry them.

"No matter what they say, I know my husband was murdered. I know nothing of the $75,000 insurance policy he is said to have taken recently."

A report was published today that there was a scene at a prominent Staten Island club recently which resulted in a request that Mr. Spier leave the club. The cause of it is unknown.

Will Build New Battleship.

Washington, May 10.—The constitution bureau of the navy is willing to undertake to build the Leviathan 20,000-ton battleship provided for in the pending naval appropriation bill and on the basis of the experience acquired in the construction of the battleship Connecticut at the New York navy yard, the constructers feel sure that they can execute this task with reasonable dispatch at a minimum of cost. A careful estimate limits the time allowed for construction to 48 months, and the cost to $10,000,000. The New York navy yard is found to be the only place available and suitable for this work.

Discuss Boundary Dispute.

Constantinople, May 10.—An official of the office Wednesday had a long interview with the British ambassador in connection with the Egyptian boundary dispute, but up to the present time there is no indication of what course the Porte will decide to pursue. The general opinion, is, however, that the Turkish troops will evacuate Tabah before the British ultimatum expires.

Atlanta, Ga., May 10.—That the organization of the populists party shall be surendered, and that its members shall return individually to the democratic fold in order to participate in the coming primary under the rules prescribed by the state democratic executive committee, was the decision reached at a meeting of populist leaders held Tuesday in the office of Judge James K. Hines, former candidate for governor on the populist ticket.

Those at the meeting declared that the course decided upon would be followed by the populist state executive committee when it meets in Atlanta May 21.

Among those present at the meeting besides Judge Hines, were: A. C. Wiliams and A. C. Talley, of Cobb county; Dr. S. B. Lee and P. B. D Stancell, of Campbell county; Messrs. Burdett and Moore, of Polk county; Rufus C. Guthrie, of Forsyth county.

Smoke Column From Vesuvius.

Naples, May 10.—Vesuvius is again showing considerable activity. Tuesday a dense column of smoke rose from the crater and spreading like an umbrella accompanied by loud detonations and electrical discharges which were especially noticeable from Resina. The main crater is discharging sand and cinders. An English engineer named Mozer Tuesday ascended Mount Vesuvius, going within eighty yards of the opening of the crater, which now is four hundred feet lower toward Resina than it was before the recent eruption.

Plead Guilty to Whitecapping.

Jackson, Miss., May 10.—Over 300 citizens of Franklin county, charged with being members of an alleged whitecapper organization, pleaded guilty Tuesday before Judge Niles on the charge of intimidating government homesteaders and were each assessed the minimum fine of $25 and three months imprisonment. The imprisonment was held up pending good behavior. The litigation has attracted much attention owing to the prominence of the parties involved. Among those indicated was the sheriff of Franklin county.

The survivors existed on the island of New Britain for four months living on roots and fish. They were found by natives and taken to Sydney. They may be returned to the penal settlement.

$60,000 INDEMNITY PAID TO AMERICA

China Makes Amends for Her Wrongdoing.

MONEY GIVEN TO MISSIONS

Indemnity Is Result of Destruction of Property During Rioting at Lienchow Last October at Which Time Five Americans Were Murdered.

Hong Kong, May 10.—The viceroy of Canton has paid to the American consul, Julius G. Lay, the sum of $60,000 as indemnity for the mission buildings, the personal property of the missionaries and the claims of converts as a result of the destruction of property during the rioting at Lienchow in October last. The money will be transferred to the Presbyterian mission settlement at Lienchow.

Five Americans belonging to the Presbyterian mission at Lienchow in the western part of the province of Kwang Tung were murdered October 28th, and the mission buildings destroyed as the result of a dispute between the missionaries and natives over an apparently trivial incident at a Chinese festival. The persons who lost their lives were Mrs. E. C. Machle and her daughter Amy, the Rev. and Mrs. John Rogers Peale, and Dr. Eleanor Chestnut. Dr. Machle and Miss Ella G. Patterson, also of the American mission, succeeded in escaping.

Soon after the occurrence the American minister at Pekin cabled to Washington that he had been requested by the Chinese minister for foreign affairs, to inform the United States government that China was profoundly humiliated and distressed over the affairs at Lienchow, and had promised that prompt and vigorous action would be taken to punish the ones responsible for the disturbance, and to prevent a repetition of such outrages at Lienchow, or elsewhere. Later, the three actual murderers were decapitated, four men were imprisoned for five years, two for three years, two for one year and one for six months. Others of those implicated were sentenced to minor punishments.

Huge Icebergs Sighted.

New York, May 10.—Indicating an early breaking up of the northern ice fields, huge icebergs were seen by officers of the freight steamer Gowanburn, of the Burn Line, when docked Tuesday. The ship came from Cardiff, England, over a route about 170 miles north of the mail boat track generally taken at this season. Captain R. W. Forbes said: "At noon May 3rd I saw a huge iceberg about 8 miles off our port side. It looked to be about 130 feet high, and about 80 yards long. We had no sooner passed the iceberg than another was seen about 5 miles west. We were at 44 degrees and 45 minutes north latitude, and 48 degrees and 4 minutes west longitude.

An enjoyable evening is assured those who attend, and it is hoped that a good crowd will be present, as the cause is a worthy one.

SYSTEMS OF WRITING.

The Famous Method Known as the Boustrophedon.

About the year 450 B. C. the Ionians first introduced the system of writing from left to right. Previous to that time all scribes and penmen in general had been in the habit of beginning the line on the right hand side of the page and running it toward the left. The introduction of the left to right mode of writing caused considerable confusion for a time, and from the mixed systems which prevailed during the following century sprang the famed method known as the boustrophedon. Those who used the system last mentioned would begin a line at the left margin of their parchments and run it through to the opposite margin and then drop a space below and run back to the opposite edge of the sheet again. In other words, the boustrophedon mode of writing was a system in which the lines ran alternately from left to right and from right to left. This system did not entirely disappear until about the time of Christ. The ancient Hebrew and Greek languages were written from right to left, but at about the time the Ionians were reforming writing methods the Greek letters were changed in form from the uncial to the cursive, and the system of writing was changed in both cases so as to run from left to right. The following quotation from Franklin illustrates the mixed, or boustrophedon, system of writing:

"When I see a merchant overpolite to a ekat ot meht gnigeb ,aremotsuc sih little brandy and throwing his goods on na sah nam taht I skniht ,retnuoc eht ax to grind."—St. Louis Republic.

SHOE NAILS.

The Way They Are Made and Why They Are So Cheap.

Three million separate shoe nails are often cast from one ton of metal. Of the smaller sizes 2,000 nails are molded in a single mold, and an expert workman will make eighty molds in an ordinary working day, thus turning out 160,000 separate nails.

When the metal in a liquid state is poured into the mold it runs through the sand in passages provided in the molding process; the whole of the nails are cast together and are, when removed from the sand, connected by a network of iron one with another. In this condition the iron is as brittle as glass, and very little force is required to separate the nails from the network which holds them together.

They then have to undergo the process known as annealing. They are mixed up with hematite iron ore, which is in a powdered state, put into iron pots, and placed in an annealing furnace, a sort of kiln. Here they remain for some days, care being taken to so regulate the heat to which they are subjected that the iron will not be remelted, but brought very nearly to that condition. The action of the raw iron ore upon the brittle casting is marvelous. After cooling, it can be bent without risk of breaking, and it becomes a useful and serviceable article.—London Express.

Buttons.

It is only in comparatively modern times that buttons have been utilized as fasteners. The Greeks and Romans knew nothing of them, and though they presented themselves as ornaments in the fourteenth century buttonholes were still an undreamed of possibility. It was not until nearly the middle of the eighteenth century that the manufacture of steel buttons was entered upon at the Soho works in Birmingham, England. Then, on the accession of George III, the gilt buttons appeared and became quite the vogue. But it was reserved for the artisans of our day to make these useful fasteners in the greatest variety at marvelously low prices and out of all sorts of material, even to the seemingly impossible potato.

NOURISH

the body, don't dose it with medicine. Scott's Emulsion is the best nourishment in existence. It is more than a food; you may doubt it, but it digests perfectly easy and at the same time gets the digestive functions in a condition so that ordinary food can be easily digested. Try it if you are run down and your food doesn't nourish you.

Those attending the Horticultural Convention at Jacksonville last week from this place were Dr. and Mrs. Curtis and Mr. and Mrs. J. H. Patterson. The speeches and papers were full of profitable information to the farmer and trucker, as well as the fruit and nut growers of the State of Florida. We were royally entertained at Hotel Windsor, and on Wednesday night a grand musicale was given in our behalf at the auditorium of the Board of Trade building. On Thursday night we were honored by an interesting recital at the hotel auditorium. We left the city Friday at 10 a m. and arrived at home 12:20 p. m., weary and footsore, but we trust wiser and better, and hope to meet many of the new-made friends next year.

Costliest Building In the Country.

Which is the costliest building in America? Would you answer offhand the New York state capitol at Albany? Hardly. Your thoughts would turn more likely to the national capitol at Washington or to the Congressional library. But the New York state capitol cost more than the national capitol and the library of congress together. The Empire State capitol cost $24,000,000, while the one at Washington, two acres larger, cost only $12,000,000 and the Congressional library only $7,000,000. Our Empire State capitol cost as much as the nation paid for all Florida and the Philippines combined. —Gilson Willets in Leslie's Weekly.

THE WALDO SCHOOL.

Commencement Exercises Were Fine and Appreciated by Audience.

A large number of people of Waldo and vicinity were present at the commencement exercises of the Waldo High School, of which Professor J. H. Coffee is principal, Tuesday evening, and all who attended were delighted with the entertainment which showed that Professor Coffee and his able corps of assistants have not been idle during the term just closed.

The program Tuesday evening consisted of a drill by twelve girls. It was a hoop-drill, the hoops being used to fine effect, and after an exercise of forty-five minutes, during which many figures were pictured, the class concluded with the letters "W. H. S." neatly arranged. It showed perfect work and perfect training, for which Professor Coffee and his assistants are to be congratulated.

At the conclusion of the drill there was a vocal duet by little Miss Pauline Cauthen and Master Will Jolly, which was well received. These little folks were wonderful and won the admiration of all who heard them.

Following this number was a dialogue by the pupils of the school that also reflected credit.

An instrumental solo on the piano by Miss Louise Cauthen was as fine as has ever been heard, and this young lady received many encores.

These exercises were followed by the graduating exercises, which commanded the close attention of all present. The salutatory paper, "Falsehoods of History," was read by Miss Alice Strickland in a very clever manner and was heartily received.

Miss Ruby Sparkman read an essay on "Hobbies and Hobby Riders," while Miss Alvina Staff captivated the audience on a paper which she composed and read, entitled, "Compensation for Labor." Miss Staff is a fine reader, a well-educated young lady, and her work upon this occasion was appreciated.

Miss Effie Pettit was tendered the honor of the valedictory, and it is needless to add that her remarks upon this occasion were equal to her best efforts. Miss Pettit is a fine speaker, and in her essay on "The Sphere of Woman" made several points which were applauded.

The exercises were concluded by the presentation of diplomas by Prof. Coffee, and thus ended one of the most successful terms the Waldo school has ever had.

It may be well to add that Waldo High School is the only institution of learning that has turned out any graduates this year, which is quite a compliment to Prof. Coffee and his associates.

Contagion and Infection.

The terms contagion and infection are too often used promiscuously, though they are by no means synonymous. The dissemination of mycotic diseases takes place in different ways. There are those which cannot be communicated from person to person, but spread only by the microbic cause invading the individual. To this class belong malarial fevers produced by spasmodia. There are, secondly, those which are not communicable from person to person, but through external carriers only, such as soil, water, food, air, clothing and utensils. To that class belong yellow fever and Asiatic cholera. They are infectious. There are, finally, those which may be transmitted directly from a person or indirectly through carriers. To this class belong scarlet fever, measles, diphtheria, variola, influenza, erysipelas and varicella, perhaps also whooping cough. They are contagious and infectious.

Courting Customs of Siam.

In Siam the lighting of a cigar indicates a betrothal. In that country a person wishing to become engaged to the girl of his choice offers her a flower or takes a light from a cigar or cigarette if she happens to have one in her mouth, and thereupon, provided there is no impediment, steps are at once taken to arrange for the payment of the dowry. The families of the bride and bridegroom have each to provide a considerable sum. In Calabria, as in many parts of India, a lighted taper or a lighted pipe betokens the acceptance of the suitor for the hand of a lady in marriage. In Siberia it is the custom that when a suitor has been accepted by a girl she presents him with a box of cigars and a pair of slippers as a sign that he is to be master in the house.

WINDSOR HAPPENINGS.

A Fine Rain Has Helped Crops—Matters of Personal Interest.

Windsor, May 9.—Windsor has been blessed with several very seasonable showers during the last three weeks, and Monday we had a regular old fashioned down-pour.

Crops in this section are looking very good. So is the grass in spots. Oats are especially fine in this section.

J. A. Rosborough has recently completed a deep well, and after much blasting has a fine flow of excellent water.

W. H. Byles has been selling some extra fine Bermuda onions of late, some of them seven or eight inches in diameter and very solid.

M. J. Beckam has been quite unwell for a few days, but we are pleased to state that he is much better now.

Mrs. Wilson, nee Miss Bessie Beckham, has been for a few days visiting with her parents, but returned to her home in Green Cove Springs Tuesday.

J. Torode has a patch that is turning out very choice Irish potatoes.

Mr. Brown, Jr., of Chicago, paid Windsor a short visit Sunday.

Mr. Ellis of Gainesville was in town Sunday.

I. I Wilkinson is shipping beans quite heavily. Fabian Thomas also has some extra fine beans.

The people of Windsor are quite a little interested in the scheme of building an automobile road from Gainesville to Newnan's lake and build up a pleasant resort on the lake shore. There certainly is a good foundation to begin such an enterprise on a large clear lake, set in the midst of a heavy copse of timber, the shore of the lake in many places so high that one can walk to the water's edge without getting their feet wet, forming a most beautiful natural park. The lake has a good stock of fine fresh water fish, including such well known game fish as black bass and pickerel.

JUST BREATHE IT.

Hyomei Cures Catarrh in Natural and Rational Way.

No dangerous drugs or alcoholic concoctions are taken into the system when Hyomei is used in the treatment of catarrh. Breathed through the neat pocket inhaler that comes with every outfit, the balsamic healing of Hyomei penetrates to the most remote cells of the nose, throat and lungs, killing all catarrhal germs, healing the irritated mucous membrane and effecting a complete and permanent cure.

No medicine taken into the stomach can possibly reach the remote cells of the air passages, or give the immediate relief that follows the use of Hyomei. A few days' treatment is usually all that is necessary to show how quickly this remedy will cure catarrh.

So successful has Hyomei been in the cure of catarrh among their customers that J. W. McCollum & Co. sell it under a positive guarantee that it costs nothing unless it gives satisfaction. The complete outfit sells for one dollar, while extra bottles can be obtained for 50 cents.

For Mr. Mathews.

Editor Sun, Gainesville, Fla.: Dear Sir—As it is customary for us to speak for the men we think best suited for the offices to which they aspire, we beg space in your valuable paper to speak a few words in the interest of W. J. Mathews, who is a candidate for the office of county commissioner from District No. 2. We do not want to be understood to be the least bit envious to either of his opponents, for they are both good men and good personal friends of the writer, but fellow voters, the time has come when it behooves us to vote for and elect if possible the men whose personal fitness best qualify them for the office to which they aspire. Mr. Mathews is a man that has been tried, even when the rules of trial were indeed hard, and to every emergency he has measured equal. He has the distinction of having served us as county commissioner during which time of service our county was entirely freed from all debts and lawsuits, and the rate of taxation was lower than the writer remembers ever seeing it and at the same time leaving a neat sum of money in our county treasury. These things, fellow voters, are worthy of note, and as the county commissioners are to be voted for all over the county, we shall certainly feel grateful if you give him your support and on the fifteenth give him your vote.

Young Girls

Avoid The Dangers and Sufferings of Womanhood

Many a girl who graduates from high school or female college with a brilliant record and high standing is broken down before she is twenty.

Nowadays girls are pushed to the limit of their endurance both in school and society. They must make a success—even if they are forever unfitted for the larger school of life and debarred from the happiness of motherhood.

At this time of life, when just entering upon womanhood, nature makes heavy drains upon the vitality, especially at each monthly period,

Lydia E. Pinkham's Vegetable Compound

the most wonderful of all tonic restorative medicines for women, will tide a young girl over this trying time and bring her safely into strong, noble, beautiful womanhood.

Experience of a Beautiful High School Girl

Her First Letter.

MY DEAR MRS. PINKHAM:—I write to see if you can suggest some means to cure me. A little more than a year ago I was unwell for the first time, and since then I have been sick all the time in some way or other and suffered with painful and irregular periods. I went to a summer resort for my health and was doctored all summer, but to no effect. I have not been unwell for two months and thought I would see if you could do me any good. I attend High School and would not like to miss any time if it is possible. MARION BARBER, North Adams, Mass.

Miss Barber writes again after two years

MY DEAR MRS. PINKHAM:—Some time ago I wrote to you for advice, being troubled with irregular and painful periods and female troubles. I began taking Lydia E. Pinkham's Vegetable Compound and Liver Pills and using the Sanative Wash, and I am glad to say I am completely cured and have not had any sickness since. I wish to thank you for your kind advice and shall recommend your medicine to my girl friends. MARION BARBER, 101 Bracewell Ave., North Adams, Mass.

Free Advice for Young Girls

All young girls are earnestly urged to write to Mrs. Pinkham, at Lynn, Mass., for advice. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham, and for twenty-five years under her direction, and since her decease, she has been advising sick women free of charge. Thousands of women are well, strong and beautiful to-day because they made a confidant of Mrs. Pinkham and followed her instructions at this critical time of their lives.

Obeying Orders.

Kind Lady—Ah, if you had only done what your mother told you, you might not be in this situation. Convict—I don't know. She told me to go out into the world and make money.

He is the happiest of whom the world says least, good or bad.—Jefferson.

IT IS FOR LADIES, TOO.

They Can Stop Their Hair Falling Out With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth, with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

It is said that medical men are loud in their criticisms of the wearing by women of the long gloves which has become a fad and in connection with the wearing of the sleeve baugh or bracelet to keep them from wrinkling. It is claimed that varicose veins will be the result. However, Dame Fashion is not liable to change the prevailing fashion on account of the medical profession's opinions.

"Nine, ten, a good fat hen," sitting ten years, or a thousand hens sitting each on their fifteen eggs, would be required to do the work of the new incubator, with a capacity of 15,000 eggs, just completed in Pembroke, N. Y. Partitions divide it into 100 compartments, each accommodating two trays. The trays have wire bottoms and hold seventy-five eggs each. The incubator is heated by means of a coil of eight steam pipes.

The following time table should be preserved by every mother, as it is often a source of the greatest anxiety to know whether or not a child will develop a disease after having been exposed to it: Chickenpox, symptome usually appear on the fourteenth day; diphtheria, second day; measles fourteenth day; momps, nineteenth day; scarlet fever, fourth day; smallpox, twelfth day; typhoid fever, twenty-first day; whooping cough, fourteenth day.

The State census, a report of which has just been issued by H. Clay Crawford, Secretary of State, and B. E. McLin, Commissioner of Agriculture, gives Alachua county a population of 34,007, of which 20,409 are negroes and 13,598 whites, an increase during the past five years of 1,762. The same report gives Gainesville a population of 5,413, as compared with 3,633 in 1900. The total population of the State is 314,685 white and 241,870 blacks, making a total of 556,555.

We must not be too hard upon Adam that, on such brief acquaintance, he should have been prejudiced and suspicious as to woman, and that he cast the blame of their mutual sin upon Eve, saying, "It was the woman Thou gavest me!" Time has changed all that. She is now his most intimate friend, his alter ego, his complement, his soul-uplifter, and if he were asked today who it was that persuaded him to eat of the fruit of the tree of holiness he would answer even as before, but this time without the stain and shame of cowardly equivocation, yet truthfully and joyously, "It was the woman Thou gavest me!"

If you can contribute to the Department of Agriculture a rat, mouse, dog or rabbit fatally ill of a contagious disease you may confer on the country a benefit worth millions of dollars. The Department is seeking for some means of ridding certain parts of the country of "varmints" that are doing enormous damage but that defy ordinary means of extermination. In one county in the State of Washington field mice practically have ruined all crops, while in Wyoming wolves are raiding the cattlemen's herds with ever-increasing boldness and traps are of no avail against them. Throughout the entire country field mice, field rats, ground squirrels, gophers and such small pests are costing the country millions of dollars annually. Some form of epidemic seems the only way to get rid of them.

TO DEPORT SILVER COIN.

The Dominion Government has decided to deport the United States silver coin which has been circulating in that country for a long time. Under an arrangement made by the finance department with the banks, the latter are arresting all the United States silver coin that comes into their hands. All of these pieces that reach the banks will be sorted and shipped to New York, where they will be received at the agency of the Bank of Montreal. It is not because they will benefit specially that the banks are assisting in this work. Though the amount of metallic money bearing the stamp of the Republic circulating in Canada is estimated at $1,000,000, it does not compete to any great extent with their bank currency, which is all in the form of notes of no lower denomination than $5. It is Dominion Government money that is displaced by United States silver, and with the Dominion Government the loss is no mere interest charge. The Government loses the difference between coin value and bullion value. The metal in a 50-cent piece is said to cost the Government about 23 cents. The piece of bullion for which it pays out 23 cents is stamped into a coin, which is accepted by the creditors, shippers or employes of the Government as payment for 50 cents' worth of service, material or credit. If the $1,000,000 of the United States silver had not been in the country $1,000,000 of Canadian silver would have been required. To provide this money the Government would have had to spend about $450,000, but as it would have got $1,000,000 for it, there would have been a profit of $550,000. This should not be foregone because of indulgence to our neighbors, or because we are too careless to look after our own interests. By keeping its money here we were really contributing more than half a million dollars to the revenue of the United States. The people of the United States do not reciprocate. They take neither our coin nor our bills, whether of the Dominion Government or the chartered banks.—The Commercial.

The Chicago Chronicle treats lightly the fear of disease in San Francisco arising from the decay of dead bodies, saying, "It has been proved in many ways that the exhalations of decaying animal matter are not injurious to health and there are even reasons for thinking that they are beneficial. Bridgeport is the healthiest part of Chicago. The decay that is deadly is the decay of vegetable matter. A single decayed cabbage leaf is more dangerous than the entire Union stock yards."

It is all right to preach that a man should love his neighbor as himself—it sounds so good and platonic. But it is not always possible. Take for instance the man who has planted a fine garden and his neighbor has chickens which he persists in permitting to run at large. How can the man with the garden love that neighbor as himself? It simply can't be done, so long as those chickens are not shut up.

Secretary of the Navy Charles J. Bonaparte, in a striking speech at Atlantic City, N. J., made a strong appeal for higher salaries for public officers. He maintained that the present tendency is to keep poor men and, as a rule, the better element of American citizenship, out of the government service. None but rich men can afford to hold any of the higher offices in the public service these days at the present rate of pay.

Fraudulent Sweetbreads.

"A true sweetbread is perhaps the most healthy meat that can be eaten," said a doctor, "but you are never able to get it. The sweetbread proper is the pancreas, which is one of the most effective agents in promoting digestion, but the sweetbread of trade is usually obtained from the throats of cattle and is what is called the thyroid gland. The gland rests against the windpipe, and, while its texture is similar to that of the real sweetbread, it has not the same beneficial qualities. But some butchers, in order to make money, pass off the salivary gland, that which furnishes the saliva, located in the cheeks, for a sweetbread. This is the most inferior substitute of all. The pancreas, or real sweetbread, is a most dainty morsel. It is of triangular form, while the sweetbreads obtained from the throat are of an oval form. But what is the use of making people dissatisfied? They have been eating thyroid and salivary glands for sweetbreads for years and have been satisfied. But then they have never tasted the real thing."—Pittsburg Dispatch.

Money Value of St. Louis.

When Louis IX., the saint, surrendered with his whole forces to the Saracens at Mansura on the 5th of April, 1250, 1,000,000 golden bezants—equal to half that number of the livres of the day—were demanded for his freedom. But the Moslems came down to 800,000 bezants, and in the end by surrendering Damietta Louis got off for 100,000 marks—equal, roughly, to over £1,000,000 of today. These golden bezants contained about 30 shillings' worth of our gold, but to go to market with would buy then as much probably as 7½ sovereigns now would. Were the scorner allowed to break forth here he would probably tell how this high priced and saintly carcass was treated by his people when Louis died at the siege of Tunis, twenty years later. Being hard up for embalmers, they had, according to the journal of Aubery, to quarter and boil him down in separate caldrons and so sent but his whited skeleton to France.—London Chronicle.

COULD NOT REST NIGHT OR DAY

With Irritating Skin Humor—Whole Body Affected—Scalp Itched All the Time and Hair Began to Fall Out—Wonderful Result From

APPLICATION OF CUTICURA REMEDIES

"I am never without Cuticura Soap and Cuticura Ointment since I tried them last summer. About the latter part of July my whole body began to itch. I did not take much notice of it at first, but it began to get worse all the time, and then I began to get uneasy and tried all kinds of baths and other remedies that were recommended for skin humors; but I became worse all the time. My hair began to fall out and my scalp itched all the time. Especially at night, just as soon as I would get in bed and get warm, my whole body would begin to itch and my finger nails would keep it irritated, and it was not long before I could not rest night or day. A friend asked me to try the Cuticura Remedies, and I did, and the first application helped me wonderfully. For about four weeks I would take a hot bath every night and then apply the Cuticura Ointment to my whole body; and I kept getting better, and by the time I used four boxes of Cuticura I was entirely cured, and my hair stopped falling out, but I continue to use the Cuticura on my scalp. It keeps all dandruff out and scalp is always clean. I always use Cuticura Ointment on my face after shaving, and have found nothing to equal it. I will never be without it." D. E. Blankenship, 319 N. Del. St., Oct. 27, 1905. Indianapolis, Ind.

RECOMMENDED TO ALL MOTHERS

"I have used Cuticura Ointment for chafing of infants, and as they grew older all skin diseases were given treatment with that and the Cuticura Soap. I never found it necessary to call a doctor, as these Remedies are a sure cure, if used as directed. I am glad to recommend them to all mothers." Sincerely yours, Mrs. F. A. Kennard, June 21, 1905. St. Paul Park, Minn.

WILL CAMP AT CHICKAMAUGA

Georgia State Troops Will Go Into Summer Encampment.

Atlanta, May 10.—Georgia's troops will go into the summer encampment this year at Chickamauga Park, between the dates of August 5 and 25. The adjutant general's office has received a communication from the secretary of war asking for the estimates of cost and time suitable for the encampment of the Georgia militia, and Assistant Adjutant General Scott, after figuring out the cost estimates, will reply that the dates mentioned in August will be most suitable.

It has not been definitely settled yet by the war department just how many Georgia troops will be allowed to go into the encampment, but it is stated at the adjutant general's office that this sate will send every man the war department authorizes.

The government's appropriation for the militia instruction encampment this year is about $700,000, which amount is to be divided between five camps. The department of the gulf gets one-fifth and will hold its encampment at Chickamauga. All the states in this department will participate, hence it is that Georgia will have to make up her quota of troops according to the war department's allowance, based on the number of troops in this department.

The encampment last year was a general camp of instructions and was held at Manassas, Va. The Chickamauga encampment is expected to outclass the Manassas affair in every detail, on account of the experience the regular and militia officers gained in the first encampment.

The Art of Forgetting.

I have heard men and women say, "I could be happy now if I could only forget the past." Be kind to yourself and "forget it." Do not try to do so in a labored, strenuous way, but gently suggest to yourself a dozen times a day if necessary that you are happy in the "eternal now" and not burdened down with disagreeable thoughts of the past. In learning the "art of forgetting" you will form the wholesome habit of remembering things worth knowing and thereby bring harmony, peace and contentment into your life.—M. J. Lorimer in Suggestion.

Followed Instructions.

A lady going from home for the day locked everything up carefully and for the grocer's benefit left a card on the back door.

"All out. Don't leave anything," it read.

On her return she found her house ransacked and all her choicest possessions gone. To the card on the door was added, "Thanks. We haven't left much."

Had to Creep.

"Why do you say 'A blush crept over the face of the fair plaintiff?'" asks the editor.

"Because," explains the society editor, "there was so much powder on her face the blush had to creep or else it would raise too much dust!"

A Good Rule.

When thou wishest to give thyself delight think of the excellencies of those who live with thee. For instance, the energy of one, the modesty of another, the liberal kindness of a third. —Marcus Aurelius.

POLITICAL ANNOUNCEMENTS

For State's Attorney.

To the Democratic Voters of the Eighth Judicial Circuit of Florida:

Believing that my thirteen years' practice of law, together with my experience as a prosecuting attorney, fully fit me to discharge the duties of State Attorney, I, therefore, at the request of many friends, announce myself a candidate for nomination in the Democratic primary for State Attorney for the Eighth Judicial Circuit of Florida. If nominated, I pledge myself to courteously, economically and faithfully discharge the duties of the office and to help maintain the dignity and honor of the court. Respectfully,
JOS. M. RIVERS.

To the Democratic Voters of the Eighth Judicial Circuit of the State of Florida:

Having served you in the capacity of State Attorney since July, A. D. 1903, and trusting that you have approved of the manner in which I have represented the State and discharged my duties, I solicit your votes at the coming primary for the position of State Attorney for the Eighth Judicial Circuit.
Very respectfully,
Palatka, Fla. BENJ. P. CALHOUN.

I respectfully announce that I am a candidate for the office of State's Attorney for the Eighth Judicial Circuit of Florida, composed of the counties of Alachua, Baker, Bradford, Levy and Putnam. I conceive the faithful and energetic discharge of the duties of the office to be a sacred obligation to the State, and, if the voters of the circuit favor me with the nomination, I pledge them that the interests of the State and of society shall not suffer through favor or negligence of mine.

For State Senator.

To the Democratic Voters of Alachua County:

I have, on various occasions, been earnestly requested to enter the race for State Senator from this county, and, until now, have declined to do so, because I had no desire to oppose the Honorable H. H. McCreary, who has rendered such valuable service to our county in the State Senate. But since he has withdrawn from the race I will be a candidate, subject to the Democratic primary.

Having served in both branches of the Legislature in the past, I feel that I am the better qualified to serve the best interests of our county at this important time.

Earnestly soliciting your support at the coming primary, I am your humble servant.
JOHN B. DELL.

In reference to my declination, which appeared in The Daily Sun of Mch. 20th, the same was made in what I conceived the interest of harmony. However, I have reconsidered same and am a candidate for the State Senate.
H. H. McCREARY.

I respectfully announce my candidacy for the Democratic nomination as Senator for Alachua county (33d district), pledging my support of all measures in the interest of the masses as against the classes; and especially do I pledge my support and influence in aid of the common schools and maintenance of the State University upon a liberal basis such as will enable parents to obtain for their children a thorough education in their own State, as well as all measures tending to promote the religious and moral welfare of the entire people. Thanking my friends for their support in the past, and soliciting the vote of all Democrats at the coming primary, I am very respectfully,
H. H. McCREARY.

The arduous duties of the office, at this, the closing period of 1905 collection, will entirely prevent my making a canvass of the county and seeing you in person, so I trust my friends throughout the county will remember me on the 15th of May at the various precincts, when casting ballots for the men of their choice to fill the respective offices now elective. NO PERSON

Would Make Such a Proposition to the People of Gainesville, Unless They Were Absolutely Sure.

Did you ever know or hear of a person who would offer to return every cent you paid him if he could not build up heath and create strength and vitality for old people, weak, sickly women and children and the convalescent, create an appetite, cure stomache troubles, make those who are too thin fat, rosy and haalthy? Or cure hacking coughs, chronic colds, throat and bronchial trouble?

This is exactly the offer our well-known and reliable druggist, W. M. Johnson, makes to every person in Gainesville.

Mr. Johnson says: "Our offer is based upon what we believe to be the greatest strength-creator and health-restorer known to medicine, Vinol, which is the up-to-date form of administering cod liver oil, recognized for centuries as the grandest of all body-building agents for wasted human strength and vitally.

"In Vinol we have simply done away with the useless system-clogging oil, and given the people all the medicinal curative elements of cod liver oil actually taken from fresh cods' livers, and we have never sold in our store a medicine of more intrinsic value.

"As a body builder and strength-creator for old people, weak women, puny children, after sickness and for all pulmonary diseases, its fame has spread so far that it is now guaranteed by over two thousand of the leading druggists of the country, and especially by us." W. M. Johnson, Druggist.
